March 2018

El Presidente

Hi all,

Well the open day was quite a success, every lathe was in use which was really good to see, it was nice to see people walking through the door making various enquiries, and of those from overseas woodturning clubs. With the possibility of a new member which is always encouraging.

We will be aiming to have another open day in October probably the 6th well before labour weekend and with a bit more advertising hopefully we can get a few more people through the doors and an even bigger display.

It has come to notice that some of the lathes and other equipment are getting a rough time, please take care when using these tools and lathes treat them as if they were your own. If there is a problem or something happens then please put a notice on the white board then a committee member can hopefully do something about it and the defective item can be repaired etc.

At this month's demo we will all be given a short induction to the equipment as records show that not every member has been given an induction to all the tools included, the demo this month will be to watch a DVD supplied by Terry it is always interesting to watch how someone else turns and the type of tools they use.

WHATS ON THIS MONTH

Tuesday 13th March
Saturday 17th March
Monday Evening
Tuesday Evening
Thursday Morning
Thursday 5th April

Monthly meeting & **Demo** 7.00pm
Working bee 8.00am - Noon
Terry's night 6.30-9.00pm
Evening Turning 6.30 – 9.30pm
Morning Turning 9.00-11.00am
Committee meeting 7.00pm

DEMO – DVD - Vessels of Illusion by Trent Bosch

SATURDAY WORKING BEE

This month working bee **maintaining Workshop Equipment**. We have all had to do maintenance on our own equipment at home so come along and help out, who knows you **might learn something** and apply it to your home workshop.

CLUB ROOM EQUIPMENT USE

It has been noted that the general treatment of machines has come into question, remember that these are for your use but please treat them as if they were your own, We are by no means a rich club and should something happen to them then it is going to possibly cost for repair. Please have a good clean up when you are finished as another turner does not want to have to clean your mess.

Tips & Tricks

Codling Moth Trap

1 Cup of vinegar

1/3 cup molasses

1/8 tsp ammonia

1.5 L water

Make a trap like in photo

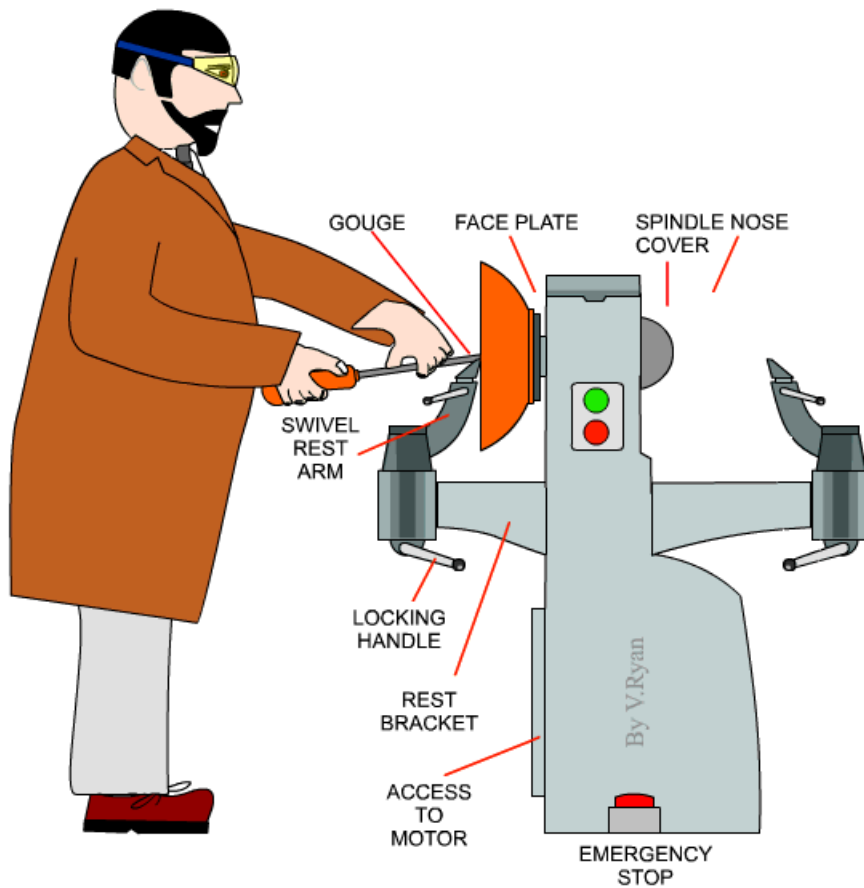

Trap needs to be place when bud is forming
